

By the blessings of the Almighty God, now MGI is an internationally reputed business group with registered offices, manufacturing units, trading units and associate partners in different parts of the world including Middle East, Europe, India, Hong Kong, China, South Korea, Singapore, Japan, UK, USA, Mauritius, Madagascar and other parts of Africa.

We use our knowledge and expertise of local and global trends, cultural intelligence, customer demands and maximize the utility of available resources to enhance the experience of global customers.

MGI as a group constantly promotes research and development in core areas to be ahead of the curve.

Over the years MGI has always been at the forefront in adopting and adapting technological advancements.

We believe that the future technologies like Artificial Intelligence, Machine Learning, Internet of Things, Blockchain, Cryptography etc. will be very soon common technologies and will not be called future technologies anymore.

We have diversified business operations and interests like Equity Funding, Sovereign Guarantee Based Infrastructure Capital Funding, Real Estates, Constructions, Electronics & Electrical Products Manufacturing, International Commodities Trade, Gold & Diamonds Mining & Trading, Farming & Plantations, Food Supplies Trading, Social Welfare etc., with offices, manufacturing units and associate partners in different countries.

We believe in the best ethical business practices, creating the highest level of efficiency possible within any organization.

UMMER HAJI KODAKKATTU
Group Chairman
MARIA GROUP INTERNATIONAL

"We thank God Almighty for what MARIA GROUP INTERNATIONAL has become since its very humble beginnings in the early 80's "Alhamdulillah" (All thanks to God Almighty).

The core success of MGI is only because of the blessings from God Almighty, the hard work, dedication and loyalty of all my colleagues at MARIA GROUP INTERNATIONAL. We always follow the old Arabic saying "Al Haraka Barakah" which means 'hard work will be blessed by God Almighty' and this is absolutely true in our case. MGI offers a great platform to its members and associates and an ample space to achieve & grow. I take this opportunity to thank all our friends, clients, partners and all other associates for their co-operation, support & untiring efforts.

We are looking forward to expand further by maintaining the commitment and responsibilities towards humanity"

MGI has been successfully operating business in different verticals. Our business operations are not confined to few industries, instead, they cover diversified areas. Our cutting-edge strategy and unique modus operandi are the key factors to our success. We are expertized in the fields of Manufacturing, Trading, Information Technology & Marketing, Investment, Capital Infrastructure Support, Mining, and Advisory & Consultancy.

We ensure high ethical values and utmost professionalism in all the businesses that we operate. Following the quote 'The Early Bird catches the worm' MGI has recently invested heavily into future technologies.

## **MANUFACTURING**

unilights

#### **FACTORIES**

We have eight factories in four different provinces of Mainland China.

#### **FACTORIES**

We have 3 factories in India which are dedicated to the manufacturing of various products.

Our manufactured electronics and electrical products are exported to USA, UK, Brazil, Chile, Columbia, Europe. Our Stainless Steel Products, Tools, LED Light & Glass products are being exported to the Middle East & African Markets.

# THE PRODUCTION LINE IS IMMENSELY VAST. IT SCOPES DIVERSIFIED ELECTRICAL ITEMS:

- · LED Lights
- · Mobile Batteries
- · Power Banks
- · Alarm Electronic Security Locks
- · Solar Panels
- Solar Equipment and Solar Power Stations
- · Water Purification Equipment etc.

## ONE OF OUR FACTORIES MANUFACTURES SYNTHETIC WOOD OUT OF THE WASTE PLASTIC POLYVINYL CHLORIDE (PVC) WHICH IS RECYCLED.

The range of products includes:

- $\cdot$  Materials for flooring and decking
- Siding panels
- · Patio furniture
- Fence
- · Planks, etc.

Enumerated materials are waterproof & resistant to the destructive forces of sunlight.

# WE STRICTLY ADHERE TO THE EUROPEAN, USA AND GCC QUALITY STANDARDS AND OUR PRODUCTS MEET THE CERTIFICATION REQUIREMENTS FOR EXPORT TO ANY COUNTRY.

### Our major lines of glass productions are

- · Tiffany style Stained Glass Art works
- · Tiffany Stained Glass Ancient style lamps
- · Glass Candle Holders
- · Hand Painted Glass Portraits
- · Toughened Glass
- Heat Strengthened Glass
- · Insulated Glass / Double or Triple Glazing
- · Laminated / Security Glass
- · Bullet Resistant Glass
- · Ceramic Printed Glass

- · Lacquered Glass
- · Bevelled Glass
- Frosted Glass
- · Decorative Glass
- · Kitchen Glass
- Shower Cubicles
- · Glass Door
- · Glass Railing
- · Glass Furniture

#### **FABRICATION**

- · Windows & Doors with Aluminum Sections
- · Windows & Doors with UPVC Sections
- UPVC Windows & Doors Hardware and Fittings
- · Structural Glazing
- · Spider Glazing
- · ACP Cladding

We ensure that every single piece of art we make is a constructive blend of ancient history embedded with modern technology.

#### **TEMPERED GLASS**

Tempered glass (also known as toughened glass) is an extremely strong glass which has been thermally heat treated to induce compressive stresses of 11 000 to 20000 psi on the surfaces and edge compression of not less than 9700 psi.

# INSULATED GLASS / DOUBLE OR TRIPLE GLAZING

Insulated Glass Unit (IGU), normally known as double glazing, is a combination of any two thickness of glass spaced apart with the spacer bar and hermetically sealed with primary and secondary sealant to from single unit.

#### **LAMINATED / SECURITY GLASS**

Laminated glass is a sandwich of two or more sheets of glass with a plastic interlayer usually polyvinyl butyral (PVB) interlayer in between.

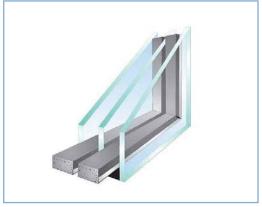

#### **BULLET RESISTANT GLASS**

Thickness and Combination of the Bullet Resistant Glass will depend on factors like, resistance required against type of weapon, striking velocity, type of ammunition, mass of ammunition and range of fire etc.

#### **CERAMIC PRINTED GLASS:**

The glass which has been printed with glass enamel before the glass is tempered or heat strengthened. On tempering or heat strengthening, the glass enamel fuses into the glass surface and become a permanent coating which cannot be damaged or removed by cleaning or scrubbing etc.

#### **CANOPY WORKS**

#### **UNILIGHTS**

UNILIGHTS is the leading flagship brand from "Universal Lighting Group" with "MGI" who persists in providing the top-notch lighting solutions. Backed by state of the art, sophisticated CNC, Laser Cutting Machines and Hi-Tech fabrication Capability, UNILIGHTS delivers aesthetic products for spaces that require unique lighting applications

UNILIGHTS forte revolves around strong design and production acumen derived from a team of highly qualified and certified engineers, intelligent controls, bespoke design, and high-performance products.

#### **QUALITY APPROACH**

Universal Lighting Group maintains the highest quality standards through rigorous testing methods at various phases of production.

#### **MISSION**

Every day we strive to be a status quo changing contributor by making the environment a better place to live in.

Through our expertise, hard work and dedication we tend to go in hand with the latest lights industry innovations to ensure the utmost satisfaction of our partners and clients

#### **STYLE**

Our style lies in our potential to understand light behavior within a fixture and its interaction with materials and surroundings. We continuously try and innovate and keep up with the technical advancements in lighting and our ongoing research.

#### **TECHNOLOGY AND DESIGN**

Our products depict the belief system that we carry - to have precise light control and performance to ensure our partners are able to create beautiful light spaces with our solutions.

## **INVESTMENTS**

#### INVESTMENT

We are associated with Financial Institutions, Banks, Family Private Offices and Venture Capitals across the globe. Our main target clients are Governments, as well as Construction and Technology Companies. We facilitate funding based on Sovereign Guarantee or Sovereign Bonds or Private Bank Guarantees or other forms of Agreements (e.g., Power Purchase Agreements) for Infrastructure projects developments.

#### **INFRASTRUCTURE CAPITAL SUPPORT**

The Investment wing of MGI analyses the client's financial requirements and helps them achieve their goal. MGI focuses more on futuristic investments that benefit the economy and people in the long run. We facilitate Equity Investments for Corporates and Start-Ups. Our team of Financial & Project Management experts can assist you in making your dream project a reality.

#### **ADVISORY & CONSULTANCY**

The backbone of every successful government or business is problem-solving, decision making, project management, and time management. MGI guides governments and businesses with proper strategic planning and risk management. With necessary in-depth analysis, brainstorming and our expertise, we guide the clients with new plans and actions to achieve their goals. We help them identify gaps in opportunities to bring an overall change.

We work on projects in a wide range of industries. We support organizations to improve their performance, by providing expert advice in different fields. We demonstrate high ethical values and utmost professionalism in our consulting operations.

# CORPORATE TO GOVERNMENT FOOD SUPPLY

MGI provides consultancy services to the government and private sectors for high-volume food purchases. food purchases. Our associate company is the leading supplier of food products worldwide. We have contractual agreements with leading farms and plantations of different food products: in South America, Africa, Russia, CIS countries and the Far East. We can also facilitate funding to the government for the purchase of food products based on sovereign guarantee, with international prime bank guarantee or any UAE-based bank's guarantee.

#### **EDUCATION**

MGI facilitates a one-stop hub for all types of educational establishment and services.

We have a team of solid and genuine consultants who can implement the academics and curriculum with utmost professionalism.

We are one of the leading IT & Blockchain Education, Training and Consulting Company Globally.

#### **OIL AND GAS**

We are well-known in the global oil and gas platforms. We provide consultancy services to the major oil companies for the purchase of crude oil as well as refined products from the Middle East, Nigeria, Russia and CIS Countries.

## **IT & SECURITY**

We are associated with leading globally reputed IT companies, support governments and corporates in the implementation of innovative Information Technology solutions (Fintech, Blockchain, etc.) for the establishment of Smart Cities worldwide.

# MGI OFFERS UNPARALLELED GEMOLOGY CONSULTING SERVICES.

#### **DIAMONDS & GEMOLOGY**

With the vast knowledge of our associate partner organizations in the global diamond industry, we offer fully equipped Gemological laboratories for the identification and analysis.

We aim to ensure that trade is achieved in respect of the Kimberley Process Certifications.

We ensure compliance with the regulatory and voluntary systems in order to prevent the trade of conflict diamonds and commerce with countries embargoed by the United Nations.

We are closely associated with Monaco Diamond Exchange, Geneva Diamonds Exchange & Diamond Investment Club of Hungary.

#### **INTERNATIONAL LOGISTICS**

We have our associate offices in major ports and cities across the globe that cater to any kind of international logistics requirement.

We have been serving the logistics industry for many years. The professionalism that we maintain has given us an edge over the others.

MGI FACILITATES
ALL THE LOGISTICS
REQUIREMENTS
AT THE
INTERNATIONAL
LEVEL.

# INTERNATIONAL IMPORT AND EXPORT

Our team of experienced foreign trade specialized professionals is well-versed in import, export, foreign trade, customs, free trade zones, banking laws and other rules and regulations.

AS WELL AS CORPORATE HOUSES IN IMPORT, **EXPORT AND** FOREIGN TRADE.

WE PROVIDE

SERVICES

CONSULTANCY

TO GOVERNMENT

### **PURCHASE OF AIRCRAFTS**

MGI serves as a leading consultant to governments and corporate houses in the purchase of Aircraft. Our associate company is partnered with major aircraft manufacturers. Our clients benefit not only from our USP of offering aircraft at very reasonable rates but also facilitating of finance based on sovereign guarantees for government purchases.

## PURCHASE OF SHIPS & VESSELS

Our Associate company is the leading consultant in the purchase of Ships and Vessels. We have well-established business relationships with the leading ship manufacturing companies worldwide.

We act as the linking point between the manufacturers and the governments or corporate houses and our client enjoys our economical rates.

Furthermore, we facilitate finance based on sovereign guarantee or bonds for government purchases.

### **TRADING**

We, MARIA GROUP INTERNATIONAL, have partnership with companies worldwide in in trading, high-quality commodities and food products. We are committed to providing innovative solutions, an excellent range of products and dedicated support to our customers. We import and export different kinds of product as Building & Construction Materials, Solar Energy Systems & Components, Building Hardware & Tools, Fiber Glass Products, Pipes & Fittings, etc. between different countries, keeping Dubai as our Trading Headquarter and Hub.

We define the main objective of food trading as the way to provide the community with high-quality food products and obtain an equitable distribution of goods between the nations. We trade in a variety of food commodities, like Sugar, Rice, Spices, Wheat, Honey, Vanilla, Organic Chillies, Soya Bean, Cashew nut, Organic Lemons, Raw Sugar, Tuna Fish which are imported from India, Sri Lanka, Ukraine, Brazil, Africa, and traded Worldwide. We also trade in Organic Fruits & Vegetables.

### **MGI TOOLS**

MGI TOOLS is the unique combination of physical showroom experience and online trading platform. Our goal is to provide the game-changing solution to the market of tools procuring high-quality products. Today we stand as the strong distributing partner for the reputed tools production companies from different countries. Our broad line of products includes Hand tools, Power tools, Accessories, Safety Products, Carpentry tools, Garage tools, etc.

## INFRASTRUCTURE CONSTRUCTION MACHINERY & EQUIPMENT TRADING

MGI Heavy Equipment is a leading distributor of infrastructure construction machinery & equipment such as cranes, excavators, bulldozers, etc. We are associated with the top producers of heavy equipment around the world and have already recommended ourselves as a reliable and effective business partner through our hard work and professionalism. Our mission is to become a solid contributor to life-changing economic projects and thus to play a vital part in fostering global economic growth.

### **CRAWLER EXCAVATOR ZE75E-10**

ZE75E-10 excavator adopts Zoomlion symbolic family painting, which is not only the external upgrading, but also the confident eye-catching declaration after machine upgrading. It is a good assistant for your horticultural and landscape construction, urban construction and farmland transformation

### **CRAWLER EXCAVATOR ZE215E**

This series of excavator mainly features large range of excavating, long life of bucket, high load bearing capacity of undercarriage, good stability, low fuel consumption, high operation efficiency, better coordination and smoothness. This excavator is widely used in projects of building, road-building, water conservancy, electric power, mining, oil, pipe laying of natural gas, military engineering, etc.

### **CRAWLER EXCAVATOR ZE550EK-10**

Equipped with a high-powered Cummins engine which is reliable and durable, this excavator uses an integrated, large cross-section design with a lifespan of more than 18,000 hours. Expect strengthened designs across this machine made for all the heavy duties, including an optimized D-ARCS bucket shape and cutting angle making excavation lighter!

### **DIESEL FORKLIFT FD40/45/50MINI**

Safe & Reliable

- Reinforced mast with wide view design improves efficiency and safety;
- Engine is with large torque and capacity, which is powerful and can meet different operation demands;
- · Lifting system is equipped with up and down buffer cylin ders, which reduce shock and vibration efficiently;
- · Hydraulic system is equipped with the throttling valve, which makes operation safe and reliable.

### **ELECTRIC FORKLIFT FB10/15/20/25/30/35**

Safe & Durable

- Electronic AC traction motor and pump control with selfprotection features that do not require any maintenance.
- Motors are equipped with temperature and speed sensors to prevent accidental damage.
- · Closed-loop speed control with standard power selection switch (crawl) that ensures safety and power saving.
- · Automatic ramp parking with empty or full load.

### **ELECTRIC PALLET TRUCK TB15-M1**

Safe & Efficient

- · Small self-weight, large load capacity, improving the utilization of electricity.
- · Maintenance-free battery , stable parts, more safe and efficient.
- · With built-in charger the forklift can be charged in any place with socket, easy to change battery.

### FLAT-TOP TOWER CRANE ZT320K

The crane boasts of multiple operation modes and wide application.

The complete machine adopts internationally well-received beautiful shape.

With PLC control, the electrical control system enjoys better reliability and safety. Produced by professional manufacturers with advanced foreign technology, the electrical elements feature service lives that are 3 or 4 times longer than that of domestic products, less faults, easy maintenance and repair as well as reliable operation.

### **LUFFING-JIB TOWER CRANE L125-10**

Performance parameters of L125-10: performance parameters and technical indexes reach both domestic and international advanced level

The crane features high working speed and excellent speed regulation performance. Stepless speed regulation by frequency control, the world's most advanced solution, is adopted for the trolleying mechanism and slewing mechanism, thus ensuring more stable and reliable operation.

A variety of safety devices are equipped, which are all mechanical or mechatronic products that are applicable to severe working conditions, so as to ensure the tower crane's reliable operation.

### **CRAWLER CRANE ZCC2600**

EFFICIENT, QUICK AND SAFETY

The mechanism operating speed up 20%, and the

speed of each mechanism don't slow down while operating 2 functions simultaneously; Time of erecting the whole crane is less than 6 hours; Omni-directional real-time LMI and monitoring system, to ensure safety operation. Full view cabin, buttons and switches are all within reach, all-around air conditioner form a comfortable operating space.

### **ROUGH-TERRAIN-CRANE ZRT600**

Maneuverable and robust drive:

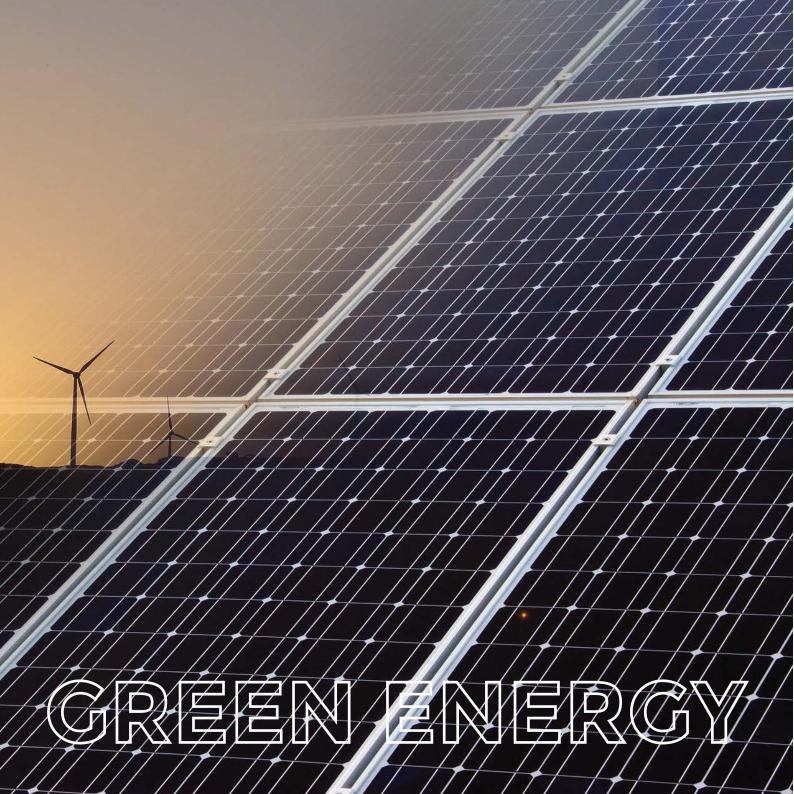

- Four-wheel drive and four-wheel steer chassis;
- Fully hydraulic steering system;
- -Variable steering modes, front-wheel steer,four-wheel steer and crab steer; short vehicle length and small turning radius provide the crane with maximum maneuverability and flexibility in narrow job sites.

Excellent off-road capability.

Strong gradeability.

Pick-and-carry operations

### **GREEN ENERGY**

### **GREEN ENERGY**

In order to reverse the trend of Global Warming, we must think about the implementation of alternative sources of energy in our households and industries. Thanks to the latest leap of technological advancement we are able now to tap into our Sun's boundless energetic resources by means of elaborated photovoltaic elements.

Nowadays Maria Group International is a leading developer and manufacturer of Solar panels technologies and solutions. We procure a great variety of applications that include Solar Panels, Solar Garden Lights, Street Lights, Solar Advertisement Boards, Solar Ventilation Fans, Solar Water Pump and Solar Power Stations

Possessing more than 20 years experience of producing electric devices and equipment we are mainly specialized in the production of LED, PIR sensors, Microwave sensors, Photocells, Solar modules, Hybrid Systems. Our range of products also includes Sensor Switches, Detectors, Light-Control Switches. Smoke Alarms. Multi-Function Home Security Alarm Systems, GSM interface systems with SMS & MMS calls, Photo-Taking Auto-Dial Alarm Systems, Sensor Cameras, etc. Most products have CE, GS, UL, BSI, SASO, VDS approvals. PIR sensor switch has gained the recommending certificate issued by the Construction Department. The products are exported to Europe, America, East South Asia. Middle East and received consistent good appraisals from local and foreign clients.

Our products are excellent combination of energy-saving solutions with lighting sensor, LED, Solar. We have a wide range of Lighting Sensor, Led Lighting, Solar Garden Lights, Street Lights, Solar Advertisement Boards, Solar Ventilation Fans, Solar Water Pump and Solar Power Stations

Maria Group International is a leading developer and manufacturer of a wide rage of energy-saving products. Over the last two decades, we have achieved a combined experience in the electronic and electrical industries where we provide the latest available technologies offering the most effective solutions for energy-saving. We offer a wide range of energy saving solutions to meet new raising energy needs. How can we help you to save? Lights are switched on only when necessary. This is feasible with our state-of-the-art equipment.

Lighting sensor Technology applied: any motion within an assigned area automatically triggers the lights to be switched on. (We have unlimited features to interface with other equipment and provide complete solutions using PIR, Microwave sensor and Photocell switches, technology)

Application: In Homes, Apartments, Hotels, Offices, Showrooms, Warehouses, and Factories etc.

### Light Emitting Diode Products Range

Maria Group International, a leading developer and manufacturer of LED Lighting Technologies and Solutions, launched the third generation of its advanced LED Arrays: LED Bulbs, Spot Lights, PAR Lights, LED Down Lights, LED Panel Lights, LED Flood Lights, LED Street Lights.

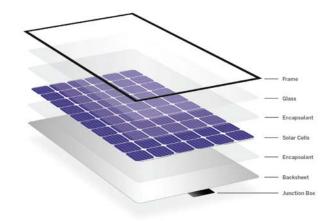

Application: In Homes, Apartments, Hotels, Offices, Showrooms, Warehouses, and Factories etc.

Maria Group International is a leading manufacturer of Solar Panels and a developer of Solar Energy based technological solutions today. It includes different applications like Solar Panels, Solar Garden Lights, Street Lights, Solar Advertisement Boards, Solar Ventilation Fans, Solar Water Pump and Solar Power Stations.

Our products excellent combination of high-quality, cutting-edge equipment and energy-saving solutions We have a wide range of Lighting Sensors, LED Lighting, Solar Garden Lights, Street Lights, Solar Advertisement Boards, Solar Ventilation Fans, Solar Water Pump and Solar Power Stations.

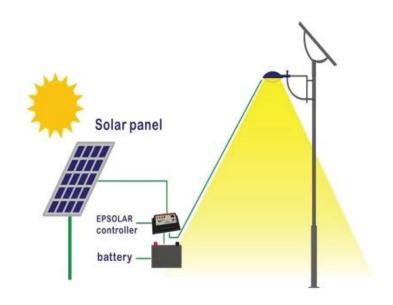

### **CELL TECHNOLOGY**

With more than a half-century of inductor electronic technology and 25 years of in-depth R&D, our products are specialized mainly as producing the complete energy-saving solutions, We are pleased to introduce its first breakthrough Photovoltaic Module in South Korea. Our Photovoltaic Modules are perfect for general on/off- grid applications in residential, commercial and utility services. By using reliable materials, unique design and systematic quality assurance, We provide our customers with unmatched product values and services.

### **SOLAR STREET LIGHTS**

Solar Street Light on/off is controlled by a Solar Controller via illumination value (unit: lux). The picture shown is an example of a Solar Street Light System when PV panels start charging the battery.

### **SOLAR POWERED GARDEN LAMP**

SLEDZ-356

Specification:

Solar Panel: 15W | Battery: LiFePO4 (12.8V / 3.2AH) | Bulb Type: (8\*0.2W/LED)\*2

Controller: Auto | Light Quantity: 320LM | IP class: IP44z

Main Material and feature:

Stainless steel pole | Surface plastic-spraying after hot galvanizing.

Aluminum Lamp Head | Plastic-spraying surface | Tough chimney.

Application: Can be used in the Park | Square | Courtyard | Walking street |

Residential quarter | Tourist attractions.

### **SOLAR BARRIER**

### **SOLAR WATER PUMP**

### Applications:

- · Village or family water supply
- · Animal drinking water and livestock watering
- · Garden/Courtyard irrigation
- · Swimming pool
- · Water supply for bivouac or camping car
- · Water supply for remote areas

These portable lanterns powered by 6 volt/5 watt solar panels are widely available now. With the help of such a photo-voltaic panel, we can construct an economical, simple but efficient, and truly portable solar lantern unit. The next important component required is a high-power (Iwatt) white LED module.

### **SOLAR ADVERTISEMENT BOARD!**

### **SOLAR VENTILATION FANS**

MGI has been undertaking and supporting many philanthropic initiatives worldwide. The 'MGI Global Green Energy Irrigation Campaign' is a program launched as a global initiative against Global Warming together with highly respectable committee members from different countries.

Further, this system can be extended or altered with much-decreased production downtime. Our range is appreciated for abrasion resistance, durable nature, excellent functionality and corrosion -resistant finish.

The Aluminium Push-fit piping system of Eqofluids Pneumsys uses a unique quick fit coupling system that instantly joins to the pipe. As it is a quiklok system, it can be easily disassembled at will and rejoined.

MGI is the Distributor as well as Installation and Maintenance Partner for 'Pneumsys' a Singapore-based reputed brand in the industrial Aluminium Piping.

Pneumsys Aluminium Piping for Compressed Air offers a perfect connection for compressor receiver to airline service components through an absolute take-off and ring main point. This can easily be fitted with just push-in action and does not require the preparation of threaded pipe or solvent. The assembling of these systems is easy and simple due to easy-to-disconnect features.

### **FEATURES**

- . Safe, Secure, Leak-proof
- . Lightweight and easy to handle
- . No corrosion, reduced maintenance
- . Easy to alter or extend a system
- . Fast installation time without the need for tools
- . Truly de mountable without damage to pipe or fittings.

"Pneumsys" offers Compressed Air Piping solutions using fittings from John Guest and Ego Fluids in India. The compressed air piping fittings system is used for the distribution of compressed air to the required point of use. It is a fairly designed system that helps in energy cost reduction and increases the production efficiency. Pneumsysenergy compressed air system is quick and easy to install and is used in various commercial and industrial facilities. Their smooth inner surfaces produce good airflow, energy savings and give optimum performance under pressure. Earlier, PVC was used for compressed air piping. It was not long before the fact that it sometimes shattered and failed, sending sharp pieces throughout the area. It becomes brittle over time and is not safe, can explode. It is not recommended for pressure. In order to solve this shattering issue new aluminium air pipe product was successfully elaborated and introduced.

# RETAIL CHAINS

## **RETAIL CHAINS**

### **MUMBAI LASSI**

Mumbai Lassi is the unique food & beverage retail chain of Maria Group International. This is the place where the centuries forged traditions intertwine with the contemporary aspects of Indian cuisine. We persist in producing and serving the best tasted Lassi and many other products in the region. We believe that the guests' satisfaction is our strict priority and hence we always aim at improving our performance achieving great results in business.

# **FUTURE** TECHNOLOGIES

#### INTRODUCTION

MGI Blockchain Technology serves the prospects with Blockchain services that help people to build futuristic networks and enable organizations to launch potent financial infrastructure.

### **CRYPTO-WALLETS**

We possess vast experience in creating crypto-wallets for various platforms & currencies according to client's preferences.

### **SMART CONTRACTS DEVELOPMENT**

Smart contracts development/audition for Ethereum, EOS, TRON, and other Blockchains.

### **NFT DEVELOPMENT**

Developing NFT tokens, NFT marketplaces, NFT Exchange Development.

### **DEFI DEVELOPMENT**

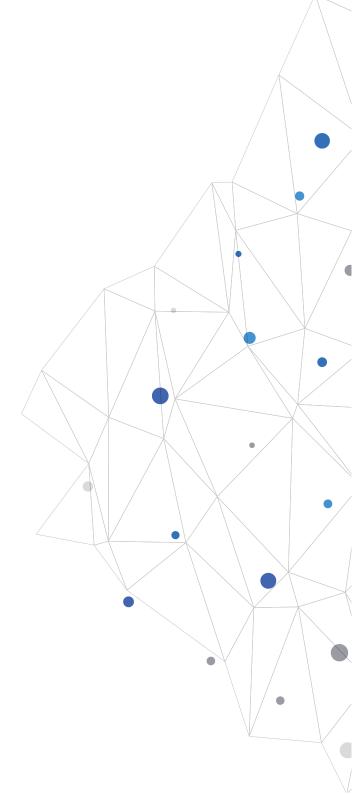

Development of any blockchain-based financial solutions, e.g. assets tokenization platforms, P2P lending, neobanks

### **WHITEPAPER**

We are partnered with the top-notch whitepaper content writers and incorporate these connections with our own in-house professional team to provide the best white paper writing services to improve your credibility, strengthen your position, and boost lead generation.

### **ENTERPRISE BLOCKCHAIN SOLUTIONS**

Transform your business realm by utilizing the foremost decentralized solutions offered by blockchain technology. Our solid network of reliable partners and industry experts will get your business to the next level by providing the best use-case-based technological advancements

## **IT DEVELOPMENT**

### **WHO ARE WE**

At Wecypher, we have one goal only: to develop great Products and Brands that have a strong impact on humanity. Innovation and creativity are the heart and soul of everything we do, and we pride ourselves on our ability to find simple solutions to complex problems with our revolutionary Design and Content.

Our team of digital experts wisely allocates the tasks and intellectual resources according to the productivity maximization principle to ensure we can dedicate our maximum attention and efforts to each project, infusing it with creativity, originality, and eye-catching exclusive content.

We don't settle for anything less than excellence – and neither should you. Whether you need help with Web Design, Digital Content, or Branding, Wecypher can help you take your brand, project or idea to the next level.

### **BRANDING**

Your brand defines you; it represents your values, sets you apart from your competitors. And if you don't know who you are, chances are your customers won't either.

- Branding
- Design strategy
- Research & Insights
- Logo creative
- · Naming & slogan
- Visual identity
- Package & Label design
- Illustration
- · Brand Guidelines

### **PROMOTION**

- · Social Media Marketing
- · Email Marketing
- Newsletters
- · Pay-per-click (PPC)
- · Digital Advertising
- · Website Analytics
- · Conversion Rate Optimization

### **WEB & MOBILE DEVELOPMENT**

- · Website Strategy & Planning
- ·CMS
- · E-Commerce
- · Domain Name
- ·Hosting
- · Mobile Application
- · Blog Development
- · User Interface Design (UI)
- User Experience Design (UX)
- · Usability Analysis
- · Landing Page

### **DIGITAL AND SOCIAL MEDIA MANAGEMENT**

Our social media management team will help you to develop and implement the ideal strategy to expand your market presence.

Owing to our rich and versatile experience, we know how to optimize your social media channels to satisfy your marketing objectives.

### **INFLUENCER MARKETING**

In order to grasp the attention of your ideal target community, you should seek no further than someone who already has their audience. Influencer marketing is about using the reach of an existing influencer to the maximum advantage. This is the person who has built a large following and strong brand reputation in a particular niche and thus you can productively cooperate to support your brand, endorse your product with the intent to increase your brand awareness and drive sales.

## PUBLIC RELATIONS & BRAND MESSAGING

We approach the challenges you might face with the up-to-date change driving tools and techniques to ensure your brand success.

### **CONTENT MARKETING**

We help companies to increase website traffic from online marketing channels. It will help you attract people from other online platforms to your website. These online marketing channels "may be" Social Media, Search Engines, or your Email Marketing.

### **MEDIA DISTRIBUTION**

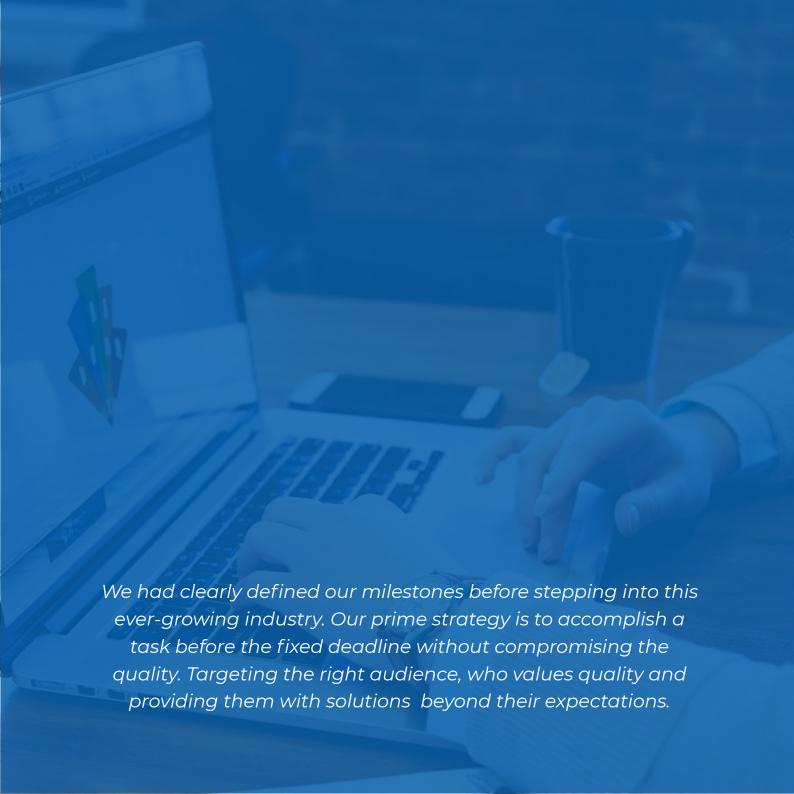

Thoughtful and competently composed press releases can become a valuable attribute to your overall marketing campaign where it can help you to reach a wider audience and boost your business.

### **COMMUNITY MANAGEMENT**

Effectively managing the community that consists of your current customers, target audiences, and all the people who interact with your brand, directly and indirectly, will help you to maintain an organic and sustainable social system around your brand
